EPC in Oil & Gas Conference - Summary EPCI 2023

The 5th EPC India Conference 2023 with the theme 'Developing effective and efficient project management practices' is a comprehensive platform for professionals in the oil & gas and energy sectors. The focus on learning about current and upcoming mega projects in India and discussing strategies to avoid delays and budget overruns reflects a commitment to addressing critical challenges in the industry.

The emphasis on presentations that delve into best practices and strategies for excelling in project management activities underscores the importance of operational excellence and productivity in project delivery. This aligns with the broader industry goal of ensuring the successful execution of projects.

The keynote presentation's spotlight on the role of project management and digitalization in mega projects in oil & gas, power, and utilities highlights the integration of technology and efficient management practices for timely services and deliverables. This acknowledgment of the role of digitalization suggests a forward-looking approach to project execution.

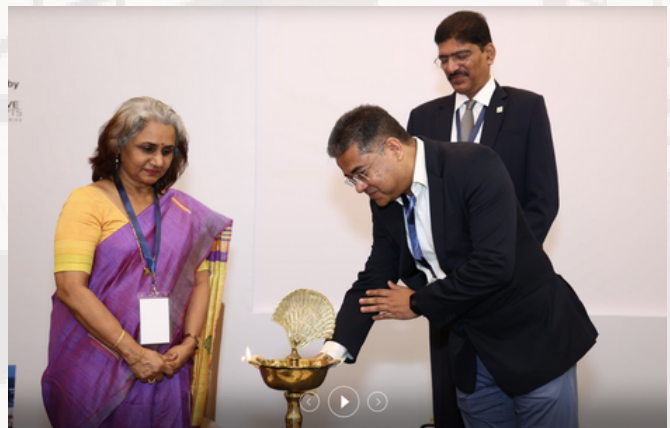

The conference's positioning as a regional industry summit, bringing together thought leadership and addressing various topics related to EPC contracts and project management, indicates a holistic approach to industry challenges.

The exploration of common challenges and solutions in EPC contract negotiation, along with strategies for risk mitigation and promoting project success, adds a practical dimension to the event.

The inclusion of sessions on innovation and technology in EPC projects, discussing the latest trends and advancements, as well as considerations for sustainability and the environment, reflects a broader awareness of industry trends and a commitment to responsible project execution.

Overall, the 5th EPC India Conference 2023 offered a valuable platform for knowledge exchange, discussion of best practices, and exploration of innovative solutions in the realm of EPC projects and project management in the oil & gas and energy sectors in India.

- Parthasarathi Chatterjee, Executive VP, Offshore Business, L&T Hydrocarbon Energy
- Ghalsasi R R, Executive Director, Central Refinery Projects Organization, BPCL
- Pratik G Bhagat & Sukumar Nath Roy, NPCC Engineering Pvt. Ltd.
- Deepak Kumbhar, Project Manager, Global Engineering Centre, Kent, Mumbai
- Sachin Anjan, Director, Probite Design Systems Pvt Ltd
- Sanjay Garg, Director Business Development, Petrofac
- K Ravi, CGM Refinery Projects Organization, BPCL
- Vinayak Kharche, Head, Information Systems and Automation, Mundra Petrochem Limited, Adani Petrochemicals Limited
- Ashish Kumar Dasari, Senior Manager Pre-Sales, Asset Lifecycle Intelligence division, Hexagon
- Atish Yerpude, NPCC Engineering Pvt. Ltd. Mumbai, India
- Syed Munawer, Sr. Solutions Consultant, Asset Lifecycle Intelligence division, Hexagon
- KARISHMA LASKAR, EE, ONGC
- Managing projects & risks – Capt. Prateek Aindley, Director, Adonia
- Pranay Veer Singh, Process Specialist, Fluor Daniel India Private Limited
- Amit Aglave, Fluor Daniel India Private Limited
- Hitesh Dalal, VP (GMS – Asset Information Model) RIL

PARTICIPATING COMAPNIES

- ABL
 - Adani Petrochemicals Limited
 - Adonia
 - Astecflow
 - Axess Aim
 - BPCL
 - Burns & McDonnell India
 - Chowgule group
 - Fluor Daniel India Private Limited
 - Hexagon
 - Honeywell
 - Image Grafix
 - Kent Plc
- L&T Energy Hydrocarbon
 - NPCC Engineering
 - OCEANERGY
 - ONGC
 - Probite Design Systems Pvt Ltd
 - Petrofac
 - Quest Global
 - RIL
 - SKO Energy
 - Technimont
 - TechnipFMC
 - Toyo Engineering
