## EPC in Oil & Gas Conference - Summary EPCI 2022

The 4th edition of EPC in India conference 2022 an International Conference was hosted by Innovative Concepts on 12th August at Mumbai, with the theme "Changing trends in EPC projects". The meeting received an active response from operator companies, CEO's, senior executives of energy companies, epc contractors, design & engineering companies, from all over the world and made it a huge success. The event was supported by Indian Oil Corporation Limited (IOCL) & L & T Energy Hydrocarbon as Principal Sponsor & Hexagon as an Associate Sponsor.

The conference was embarked with an opening speech by D S Nanaware, Director Pipelines, IOCL & Parthasarathi Chatterjee (VP & Head Offshore Business),

Larsen & Toubro followed by a series of the technical presenters by industry domain experts with their presentations that were well received by the attendees of the conference.

D S Nanaware, Director Pipelines & Chairman EPCI 2022 in his opening speech said that it is indeed heartening to see that the engineering and construction industry has staged a big recovery from the dumps of 2020. Significant expansion in the energy sector across the globe is a key factor driving the current market growth. Energy transition technologies focused on sustainable development are also accelerating the growth in the sector. As you are aware, GOI is keen to implement its vision of integrated planning and coordinated implementation of infrastructure connectivity projects.

PM Gati Shakti National Master Plan initiative for Multi-modal Connectivity targeted at integrated and seamless connectivity for movement of people, goods and services is a true indicator of the things to come. I am sure, such grand vision will translate into plethora of mega projects which need to be undertaken by the industry with a new approach.

At this juncture, EPC India 2022 offers the perfect platform for industry professionals and companies to meet for exchanging ideas and benefit from the vision of senior leaders in the domain. While EPC project management is not new, focus today has shifted to renewed emphasis on timely completion, lower costs, better quality, and zero accidents during the execution of projects. Indian businesses involved in the EPC domain have been performing exceedingly well and therefore it is important for us to come together on an industry platform to ideate and deliberate upon the best business practices and create an ecosystem of excellence across the industry.

We are living in an era of convergence, and we need to collaborate with each other to find viable and sustainable solutions.

The Engineering, Procurement, and Construction sector has been continuously evolving following continuous changes taking place in the business and technology landscape. As mega projects are cost intensive, it is of paramount importance to have a clear strategy across their entire life cycle. All such projects must meet their key objectives of timely completion without any cost overruns. However, this is easier said than done. Several projects, particularly the complex ones get delayed due to multiple factors related to land acquisition complications and environmental clearance issues. If possibilities of such delays are identified upfront, then it is possible to take necessary proactive steps to avoid the project getting trapped in the morass of time and cost overruns. Strategic stakeholder management, thus in my view, is the key to success of projects which have a large spectrum of stakeholders.

Technical presentations on various topics were delivered by senior executives of the industry.

- Leadership & Change Management - Rekha Sharma, Operations Director, GRIP Global
- Panel Discussion - Project management in EPC projects - change management for a robust project execution plan
- Emerging trends in EPC companies - Tushar Kant Tiwari, Senior Manager Energy, PwC Intelligence, PwC
- Process Optimization Techniques in the new EPC world - Vishal Mundhe, CEO, SATTVA EngiTech Pvt Ltd
- Early Engagement in FEED for Delivering Fast - Track EPC Projects - Harendra Singh, Process Engineering, NPCC
- Deploying a digital bolted joint management system at scale to prevent leaks & enforce engineering controls - Azam Khan, Business Development Manager, India, Cumulus Digital Systems, Inc.
- Digital Twin - Pravin Kumar Nakkella, Country Head of Pre Sales, Hexagon
- Operational Efficiency Improvement in EPC Industry - Pratik Bhagat, Principal Process Engineer, NPCC Engineering Pvt. Ltd.

- Sustainability solutions for EPC projects in O&G Industry - Rajeet Jayan, Upstream, VBU Oil & Gas, Tech Mahindra
- Challenges in Custody Metering System in Stabilized Crude - D. Umakanth, E&I Engineering, NPCC
- Finite Element Simulation Of A Deck Cargo/Launch Barge B-42 For Carrying The Heaviest Single Module Topside On A Fixed Steel Jacket` In The World - Fikri Basar Yalciner / Kandasamy K.K. NPCC
- Collaboration For EPC Projects and the Marine Warranty Surveyor's Perspective - Paul Miles, Maritime Civil Engineer & Practice Head Energy Services MENA

We would like to thank keynote speaker, technical speaker, delegates, sponsors, supporting media partners and sincere to thanks to our advisory committee Members for their support and assistance towards the success of EPCI 2022. We value your time and expertise with us.

With the successful EPCI 2022 event the organizers proudly announces "The 5th EPC in India conference 2023, International Conference to be held on 11th August 2023 at Mumbai, India.

## PARTICIPATING COMAPNIIES

- Aarvi Encon
- ABL Group
- Aker Solution
- Anchor Offshore Services Ltd
- BPCL
- Cadmatic
- Comprehensive Support Services Pvt Ltd
- Cumulus Digital Solution
- ESP Safety
- Goma Engineering
- GRIP Global
- Hexagon
- ImageGrafix Engineering Services Pvt. Ltd.
- Intertek
- IOCL
- John cranes
- Jubliant Enpro
- Kent plc
- Larsen & Toubro Limited
- Mascot Systems
- NPCC
- Oceanergy
- ONGC
- Petrofac India
- Pwc
- Salerno Industry
- SATTVA EngiTech Pvt Ltd
- SKO Energy Solutions
- Tech Mahindra
- Technimont
- Thyssenkrupp Industrial Solutions (India) Private Limited
